

WTCW Instructor: Kate Odell

Instructor Bio

Kate is one of the lead instructors on the WTCW team and finds great joy in working alongside the best Arborists this industry has to offer. She holds a deep love for trees and the natural world, and finds joy in any opportunity where she can pass that love along.

Kate is a graduate of the University of Vermont Rubenstein School of Environment and Natural Resources and holds a B.S. in Environmental Sciences. Although it was not her direct course of study, Kate's passion and aptitude for plant pathology and plant biology are what sparked her interest in the field of arboriculture, and she fell in love with it. Now with a decade in the tree care industry, Kate has dabbled in all aspects, including plant healthcare, tree work, climbing, sales, and management; however, she currently owns and operates her own tree care business in the Monadnock Region of New Hampshire, focusing on pruning, plant healthcare, and tree preservation.
